### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-13 and 31-33, classified in class 713, subclass 193, and drawn to a control device and the corresponding method for receiving control contents of an appliance and transmitting information to the appliance.

Group II, claim(s) 14-17, classified in class 726, subclass 28, and drawn to a communication device.

Group III, claim(s) 18-30, classified in class 726, subclass 26, and drawn to control system having a communications device for control, a control device, a relay device, and an appliance.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I, represented by independent claim 1, has the special technical feature of being able to receive the control contents of an appliance directly for the appliance or other diverse sources, Group II, represented by independent claim 14, has the special technical feature of identifying the user of the communication device for control and transmitting the identifying information and receiving reception information based on the identifying information, Group III, represented by independent claim 18, has the special technical feature of controlling an appliance.

Art Unit: 2131

The examiner respectfully points out that unity of invention is considered only in relation to the independent claims in an international application and not the dependent claims. Unity of invention exists only when there is a technical relationship among the claimed inventions involving the one or more special technical features. The expression "special technical feature" is defined in PCT rule 13.2 as meaning those technical features that define a contribution which each of the invention, considered as whole makes over the prior art. The independent claims in Groups I-III each define a different technical feature for novelty of the prior art.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to BRETT SQUIRES whose telephone number is (571) 272-8021. The examiner can normally be reached on 9:00am - 5:30pm Monday - Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ayaz Sheikh can be reached on (571) 272-3795. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
